Our Vision

Our vision is that we be recognized by our customers, suppliers, and competitors as the best company and to be viewed by our regular and contract employees, as an outstanding place to work.

We shall achieve our vision by providing outstanding quality in the technologies, products and services we deliver to the marketplace.

Our Principles

The following principles will be the cornerstone of our culture and will guide us in our vision:

- 1. We will never compromise our integrity nor our sense of fairness with our customers, suppliers, competitors or fellow employees.
- 2. Safety and environmental responsibility will be foremost in the design and execution of our processes, products and services.
- 3. We will be a socially responsible company that is attentive to the needs of the community.
- 4. We will be a company comprised of employees committed to customer satisfaction, teamwork, and continuous improvement.

To this end we will:

- 1. Employ the best people
- 2. Provide continued education and training at all levels
- 3. Provide innovative compensation plans that recognize both individual and team contributions
- 4. Provide a challenging climate where everyone can excel and feel a sense of accomplishment
- 5. Treat each other with respect and dignity
- 6. Encourage and reward innovation and risk management
- 7. Involve employees in setting the direction of our company
- 8. Provide a safe work environment
- 9. Utilize the Total Quality Process to strive for right-first-time

- 10. Emphasize internal and external communications to foster teamwork and improve customer relations
- 11. Select safety-conscious suppliers who optimize quality and value
- 12. We will constantly search for and develop proprietary technologies, new products, new businesses, and new approaches to ensure we are meeting our customers' needs.

We will be aware of the dynamic competitive environment, avoid complacency, and continually try to improve all aspects of our business.

We will be a customer driven organization. Through open communications, we will endeavor to understand our customers' expectations whether stated or unstated. Satisfying these, we will be recognized as a Total Quality Supplier whereby our customers will be profitable.
